EQUIPMENT SHOW AND
CONFERENCE

The World's Ev Charging Brands Meet Here

EV Charge Show is the world's e-mobility trade show and conference focusing on the charging infrastructure of electric vehicles.

EV Charge Show, Electric Vehicle Charging Technology and Equipment Show and Conference, will bring together hardware and software manufacturers, service providers, solution partners and all parties involved in the e-mobility sector required for charging electric vehicles with public and private sector investors. It will be held for the third time at Istanbul Expo Center on November 13-15, 2024.

Electric Vehicles on the Roads

- Electric car sales in the Turkish automobile market experienced an 934% increase compared to the previous year. Electric vehicles achieved a total of 72.179 units sold in the year 2023 while in 2022 only 7.733 electric cars were sold.
- IEA data, the number of electric vehicles has been rapidly increasing in recent years. Electric car sales surpassed 10 million in 2022, reaching 10.3 million. In 2021, the global car sales amounted to 6.5 million. According to the IEA's analyses, the number of electric cars sold is projected to reach 13.9 million in the year 2023.

Charging Stations for Energy Flow

- On a global scale, charging stations are experiencing an annual increase of over 30%.
- In a statement made by the President of the Energy Market Regulatory Authority (EPDK), it was announced that there are 12,067 charging points in Turkey as of the year 2023.

EV Charge Show is the global business platform that should be visited by those who want to examine the latest technologies in electric vehicle charging and make valuable connections about new business opportunities in the field of e-mobility.

Exhibitor Categories

- EV Charging Hardware & Software
- Smart & Fast Charging Solutions
- EV Charging Network Operators
- Solar Energy Generation, Energy Storage & Battery Management Systems For Charging Stations
- Charging Station Design, Construction and Operation Services
- Connectors, Sensors, Components, Modules, Piles, Guns, Cables, Parts
- Payment Systems, Testing, Measurement, Control, Design, Business Services

Visitor Profile

- Charging Point Entrepreneurs
- Fleet Managers
- Gas Station Operators
- Shopping Mall Managers
- Facility Operators
- Restaurant Managers
- Campus Managers
- Hospital Managers
- Accommodation Facility Managers
- Public Transport Companies
- Municipalities
- Public Institutions
- Smart City Planners
- Electric Vehicle Manufacturers
- Energy Generation and Distribution Companies
- OEM Manufacturers
- Engineers, Technical Managers
- Academicians
- R&D Institutions
- All Relevant Public and Private Sector Representatives

In Istanbul, the Capital of the World

We bring together brands and investors in Istanbul, the world's most important and easily accessible city. Istanbul, which is both a commercial and international center without visa barriers for citizens of most countries, is unique as a meeting platform. In the words of Napoléon Bonaparte, we are coming together in Istanbul, the Capital of the World. In addition, Istanbul offers an attractive business and travel experience for our guests with its historical and touristic riches, unique cuisine and accommodation infrastructure.

Our Agenda Is The Whole World

We determine the session topics of the conference, which we organise simultaneously with the trade show, according to the information needed on a global scale, and offer the common language of the conference sessions in English, with simultaneous translation.

Investors Keep Their Eyes On Us

Accurate and efficient charging is a must for electric vehicles, which are at the center of the new mobility era. The charging of electric vehicles is closely monitored by more and more investors, both in terms of its technological development and infrastructure. In this respect, there is the EV Charge Show as a unique platform for all brands offering products and services in this field to come together with investors.

Invitation to Trade Associations and Non-Governmental Organizations

We inform and invite the relevant official institutions, trade associations, and all non-governmental organizations with a mission to transition to e-mobility, operating at national and international level, in all countries that have taken action on the transition to electric vehicles.

There Are Many Reasons For You to Attend the EV Charge Show 2024 as Well!

Trade Show, Conference Sessions, Brand & Technology Talks

Meet manufacturers, suppliers, engineers and professionals in the EV Charge Show focused on the latest developments in the charging of electric vehicle industry.
